

# CITATION CJ1

REDUCED OPERATING COST, LUXURY AMENITIES

## Affordable Luxury Accommodations

Looking for the perfect jet for a quick business trip or a last-minute destination vacation? The Citation CJ1 is the answer you've been looking for. This twin-engine light business jet is comfortable, versatile, and has low operating costs which makes for an economical and relaxing private charter flight. With cruising speeds of 447 mph and the ability to land on a runway as short as 3,500 feet, the CJ1 is an excellent choice among entry level light jets.

You'll enjoy a serene flight because the cabin is equipped with acoustic-blanket sound proofing. This makes for a quiet trip that allows you to take time to sleep or get a little extra work done. If you've ever been on a noisy aircraft, you'll appreciate the difference immediately. With seating for 5 and increased cabin height, you'll enjoy a comfortable flight no matter what you choose to do.

The CJ1 is the replacement model of the CJ. In spite of its increased payload it's actually faster than the older model. Your pilot will enjoy flying it, because it's equipped with a modern avionics suite and allows for single pilot

certification which makes it a more economical choice. Don't be fooled by a lower price though because it's still a luxurious jet. You'll enjoy every minute of your flight!
